Notes: from, Bev Matthews CCSC, Field Trial Secretary Saturday was a brutal day for dogs and handlers - temperature was only in the mid 80's, but the humidity was 99% - there had been heavy rain in the early morning hours and it felt like walking through a sauna - most of the day the sun stayed behind the clouds, but when it did peak out, the heat was almost unbearable. There was little to no breeze until mid afternoon when the puppies ran. Heavy rain during the night Saturday helped somewhat for Sunday - humidity was down some and most of the morning there was a light breeze. The sun stayed away for most of the day, which was appreciated by all. Considering the heat, the dogs did well, the birds flew (most of the time), and we didn't loose any of the gallery. Hats off to the judges, gunners and shaggers for walking the fields all day, both days!!

Notes: Thanks; Back2Alaska@aol.com. The Cocker Spaniel Field Trial Club of America held it's 76th Annual fall trial for English Springer Spaniels on 14 & 15 OCT 2000. This trial was held at Dyson's Orchards, near Clinton Corners New York. The temperature Yesterday for the OPEN and the Puppy Stake was clear and sunny with a high temperature around 80 degrees. Cover was excellent - very thick and consistently three feet or more tall. The puppy field had been mowed off at about 18 inches high.

Notes: Thanks Diane Zablit; Saturday was sunny with nice breezes and a high of around 70. Scenting was good. Sunday dawned still and remained that way until almost 11:00 am with horrible scenting for most of the dogs in the 1st series - there were several passed birds and difficulties with retrieves. The breeze then kicked in nicely and there was more exciting action.	

Temperatures were cooler on Sunday, no higher than mid 60s. Cover was low mixed grasses, occasional sagebrush sections and thistle grass.

Notes: Thanks Deb Schoene; The East Central Iowa English Springer Spaniel Club held their annual trial on Thursday and Friday near West Liberty, Iowa. The fields were great as usual---long rolling courses of knee high brome grass. The weather was not very cooperative as it was quite warm--in the high 70's--but at least there was a good wind for most of the two days which kept the temperatures somewhat lower. The wind did not do much to help scenting conditions, however; many dogs were having a hard time taking birds off the nest. The Iowa club members were very hospitable and treated everyone to a good time.

Notes: Thanks Nancy Standish; The Great Lakes English Springer Spaniel Field Training Association held it's 6th field trial at the Tolan Farm in Hillsdale this past weekend. Temps on Saturday were warm ranging 65-75 thruout the day, with a slight wind. Nice fast flowing creek running thru property for cooling dogs worked very well. Cover ranged from knee high to shoulder high (depending on your height) ragweed - one small section of the three courses held very dense and aggressive undercover, while most of the three courses, the undercover was average - holding birds, yet allowing birds to move about if they wanted to. Our bird planted was a young woman who planted her very first trial this weekend. She did a marvelous job using only 320 pheasants for 67 dogs. Everyone touted her success. Very few birds were passed and very few were picked up. The judges claimed it was one of the best run trials they've experienced with guns taking birds appropriately for the course and the cover. Needless to say, we were very proud to host such a good trial. Judges, just for the record, did recognize that the cover was aggressive and that dogs had to work, but then that is what a spaniel is for.

Notes: From: Back2Alaska@aol.com The New Jersey Spaniel Field Trial Club held it's fall trial 21 and 22 OCT at Hill's Twin Spruce Lodge near Equinunk, PA. Both days were beautiful - clear skies, light wind, and temperatures in the 70s both days. Cover was excellent - knee to waist high grass, consistently thick underneath to keep the birds in the neighborhood, but not sitting too tight.

<p>Notes: Thanks Diane Zablit; Conditions are always challenging in Wasco with a hard clay soil. This year we had gorgeous cover of lush sudan grass, knee high and higher, with some occasional clumps over 8 feet tall. We even had a "jungle" about halfway down the course where the gallery and center gun were completely engulfed and separate from each side of the brace. With scenting as it was and the flat expanses of cover, retrieving was difficult for many dogs. Those dogs that had retrieves into the thick tall clumps were especially challenged. Few dogs took moving birds. The 3rd series and puppy stakes were run in dense barley mixed with some crested wheat and other grasses. Weather was gorgeous on Saturday, although a bit still for the first 15 dogs or so; sunny, but not hot with nice breezes. Sunday was rainy, resulting in better scenting, but worse flight from the birds. Any dog who finished deserved commendation in these conditions.</p>

3rd	Hammerin Hawk of Rome O: Steve Nizansky H: Gary Wilson
4th	Mountain Views Luna O/H: Ed Faraci
<p>Notes: Thanks Beverly A. Matthews; Cover was great this year, we started promptly at 7am with 40 mph winds - it was cold all day, sunny at times but getting cloudier as the day went on. Birds flew and the gunners did a great job with the wind conditions.</p>	

We finished before dark - about 6pm. With the change of time on Saturday night, we planned to start at 6:30 Sunday morning - actually got rolling about 6:45 - 53 starters for Amateurs - colder than Saturday - sometimes as windy, but not all day - the clouds really moved in and we had snow showers for about 1/2 hour two different times Sunday afternoon - Bitterly cold, but thanks to Judges, Guns, Bird Planter, Marshal (thanks Margaret Brizzie) and of course our Chairman, Ed Faraci - we completed all 53 dogs at 4:50pm!!

Notes: Thanks Deb Schoene; St. Croix Valley English Cocker Spaniel Club held its annual Springer trial on Thursday & Friday on grounds near Baldwin, WI. These grounds are open and covered with brome grass which offers an excellent opportunity to actually view the dogs doing what they love best! The third series was held in a sort of "chute" bordered by trees and peppered with hillocks and individual pines, which made for fun running as well as much exciting "off the course" bird work .
