ESS Club of Southern California held its 54th annual field trial in Porterville, CA. Instead of our usual lush green cover, we had mainly dry grass, matted down by 6" of snow a week earlier. Quite unusual. We had vertical dry sticks throughout the course, and a few spots of sage bushes. Despite worries to the contrary, we were able to hold the birds in the cover and saw some nice bird work on moving birds both days. AND, we had no real rain! (again unusual). We were very honored to have have Kermit join us and to see Ronnie Carlson back after some absence form the local trials. And they had quite a competitive trial to judge with all 3rd series callbacks in contention. First place in both the Amateur and the Open went to women handlers! They received large trophy cups for permanent possession! LASHA awards, here we come! <i>Diane Z.</i>

The weather was very good (really got chilly and windy on Sunday afternoon) and the dogs were just great on Saturday and Sunday. The gallery was always quite full and the handlers were arriving at the line on time..It went really well. The Big Saturday night Seafood cookout was once again a rousing success. Everything made for a couple of nice days of field trialing. Carol Cramer

Saturday was cool (mid-50s) and breezy most of the day. The threat of rain did not materialize. Cover was natural grasses with some sections of very thick tulles. Birds flew well, but many birds were left in the thicker patches, or burrowed under beaten down dried grass. Shooting was excellent. Diane Zablit

Results; Thank You Pat Bramwell From Cindy Goode; Oklahoma field trial, the 1st day started out with the perfect field trial conditions. The weather was cool, it had rained the night before, the cover was great. The 1st series of the open the first two dogs got their two birds and did a good job, with no problems, then scenting went way down, (what happened?) and the rest of the day was the same way, poor scenting. But as it always goes, there are always a few dogs that make it look easy, and just come up and find their birds and do a great job. For the Amateur the field was changed, due to rain and muddy roads. The cover was not as heavy but the weather was still cool. The dogs were feeling very good about themselves and the scenting was still up and down, poor some times and good other times. But as always, there are those few dogs that just come up and say 'look at me'. We had several dogs that broke, or just was running very big, I think a lot of these dog got frantic due to the poor scenting and light cover and cool weather. Several of these dogs ran both days. The one thing that I think will never change and that is the people. We all meet a lot of people every day of our lives and I just have never meet so many nice people, as in the field trial world. We all love our dogs and we just want everyone else to love them too. But if it is not that dogs day then so be it. The field trial people are still happy for those that had a good day.

<p>Thank You Pat Bramwell for the results.</p> <p>From Kevin Martineau; After two days of bad weather and poor scenting at the NE Oklahoma Trial, everyone including the dogs were ready for the beautiful spring weather and good scenting at the Kansas Trial. With so many dogs frustrated by the poor scenting at the OK trial, the good scenting at the KS trial was the undoing of many a dog. The dogs were excited by the good scenting, so much so that so many dogs broke at this trial it probably set a record. By the end of the second over half of the 100 plus dogs that started this trial had eliminated themselves. I believe the good scenting and the Chukars were the cause. Many of the dogs entered had never seen a Chukar before, as the little birds flush many will momentarily hover just off the dogs nose causing the dogs to make one last lunge at them. If they do not catch them it is off to the races and better luck next time. Chukars will also air wash when they fly, causing them to give off little scent after they have been downed by the guns. Dogs that rely on just using scent to make the retrieve can find themselves in trouble. In spite of the hazards of this trial both the winner of the Amateur and the Open put on some very nice performances. Kidd handled by Ray Paolucci was very exciting to watch throughout the trial, he was the judges top Amateur dog going into to the third and did not let them down at show time. Kidd is a great bird finder and is very capable at making long retrieves. Teaser handled by Tim DeGross entered the third battling a few other dogs for first place, through consistency and solid team work she won the day.</p>

<p>From, Debbie Schoene; Once again, the West Allis Training Kennel Club hosted a fine trial in Monroe, Wisconsin. These grounds always provide a terrific backdrop against which to see some fantastic bird work.....long courses over rolling ground, covered with brome grass. Saturday was the kind of day trialers yearn for.....sunny, temps in the high 40's, a brisk wind. Sunday started out as the kind of day trialers *usually* get....a strong cold wind whipping rain sideways! However, the skies cleared by early afternoon and the day finished on a high note, especially for the following participants.</p>

<p>From Cheryl Sligar: The Open was overcast and windy, about 56 degrees. Cover was a mixture of knee high crested wheat grass and various weeds and some sage bushes. Scenting was not consistent, almost changing from bird to bird.</p> <p>Amateur All Age started out very windy and cold, and continued the same for the most of the day. The sun came out every once in a while, but the wind was consistently blowing and scenting was much better throughout the trial.</p>

From: RICHARD NICHOLS <rvnichols@usa.net> The Minnesota English Springer Spaniel Club held their Spring 99 field trial at Major Avenue Hunt Club on April 10 & 11. The weather was cool and damp all week-end with driving rain on Saturday. Tall switch grass combined with the weather made tough conditions for all. We were very lucky to get Ken Willis to fill in for Mike Wallace who was forced to cancel due to a family illness. Special thanks to our judges, Field Trial Chairman Craig Nordstrom, Field Trial Secretary Jerry Wojtowicz and all the people who pitched in and made the trial a success!

<p>It was a busy weekend with a lot of dogs and some interesting MN weather. We had snow on Friday for training. The snow plows were actually out. Saturday was better with no moisture, cool temps, windy, mostly cloudy with sun showing through occasionally. The day began at 7am and went to 7pm with no breaks for the judges. The All Age Judges had super endurance and kept their humor through the day. Sunday was a much nicer day with sunshine and temps in the 50's. We finished the day about 7pm. Thanks to everyone who attended and especially all those who helped work to make this trial run smooth.</p> <p>Sue Nelson Field Trial Secretary</p>

From: "Debbie Schoene" <gelert@mhtc.net> The Northern Minnesota English Springer Spaniel Club held its spring trial this weekend, April 24 & 25, at the Little Moran Hunting Club in Staples MN. We had terrific gallery-weather both days...sunny and warm, tho Saturday was a bit *too* warm for the dogs, especially given the lack of any discernable breeze as the day wore on. (We field trialers are never happy...like the 3 little bears, it's either too cold, too hot, too windy, too wet, not enough wind, etc! ;-)) The cover was a mixture of light grasses. The Grossmans, owners and our hosts at the Hunt Club, did a great job providing lunches for all the hungry participants and served up an evening banquet of pheasant in a cream sauce delicately flavored with nutmeg. NMESS club members deserve kudos for running an organized, enjoyable trial.
