Field Trials

# Field Survey Form

**TRIAL LOCATION:**

Club The National Open Championship Club		
Trial Date 11-16-2023	Survey Date	10-6-2023
Field Location 4570 SR 207, Chillicothe, Oh 45601		

**OBSERVERS/SURVEYORS**

Observer(s)	Name & contact	Credentials/ Qualifications/ Experience
Observer#1	Cecelia Lokai-Minnich 937-597-5490	CCA/Agronomist/Field Inspector 48 yrs
Observer#2		
Observer#3		
Observer#4		

**EVENT LOCATIONS SURVEYED**

- DRAFT
- |  |  |                                      |
|--|--|--------------------------------------|
| <input type="checkbox"/> First & Second Series | <input type="checkbox"/> Third Series  | <input type="checkbox"/> Puppy Stake |
| <input type="checkbox"/> Parking area          | <input type="checkbox"/> Exercise area | <input type="checkbox"/> Lunch area  |

Were any areas **not** surveyed? Explain: \_\_\_\_\_

- No 'mean' grasses were observed    
  Yes 'mean' grasses were observed (*provide details on the next page*)

**REMEDIATION/AVOIDANCE PLAN**

Will observed grasses be removed from event location prior to the event?   
 YES                       NO

If 'no' what is the plan to avoid areas with mean seeds? (*Flag the area, mow a buffer, instruct the judges to avoid etc.*)

**MEAN SEEDS GRASS LIST**

**Species**

- Canada Wild Rye (*Elymus canadensis*)
- Virginia Wild Rye (*Elymus virginicus*)
- Cheatgrass/Downy Brome (*Bromus tectorum*)
- Ripgut brome (*Bromus rigidus*)
- Foxtail Barley (*Hordeum jubatum*)
- Meadow Barley (*Hordeum brachyantheru*)
- Mouse Barley (*Hordeum murinum*)

**Species**

- Oldfield Threeawn (*Aristida oligantha*)
- Single Awn Aristida (*Aristida orcuttianas*)
- Purple or Red Three Awn (*Aristida purpurpea*)
- California Needlegrass (*Stipa pulchra*)
- Needle-And-Thread (*Hesperostipa comata*)
- Sleepygrass/Tall Needle Grass (*Stipa robusta*)
- Western Needle Grass (*Stipa occidentalis*)

# Field Survey Form

**SURVEY SAMPLE AREAS REVIEWED**

**Observer Name:** Cecelia Lokai-Minnich

For each sample area reviewed document the findings below.

Sample #	What was Identified	# of Mean Seed Grass Plants Found	Location Marked
1.	Canadian Wild Rye	None <input type="radio"/> 1 or 2 <input type="radio"/> A few <input checked="" type="radio"/> A lot <input type="radio"/>	In Field <input type="checkbox"/> On Map <input checked="" type="checkbox"/>
2.		None <input type="radio"/> 1 or 2 <input type="radio"/> A few <input type="radio"/> A lot <input type="radio"/>	In Field <input type="checkbox"/> On Map <input type="checkbox"/>
3.		None <input type="radio"/> 1 or 2 <input type="radio"/> A few <input type="radio"/> A lot <input type="radio"/>	In Field <input type="checkbox"/> On Map <input type="checkbox"/>
4.		None <input type="radio"/> 1 or 2 <input type="radio"/> A few <input type="radio"/> A lot <input type="radio"/>	In Field <input type="checkbox"/> On Map <input type="checkbox"/>
5.		None <input type="radio"/> 1 or 2 <input type="radio"/> A few <input type="radio"/> A lot <input type="radio"/>	In Field <input type="checkbox"/> On Map <input type="checkbox"/>
6.		None <input type="radio"/> 1 or 2 <input type="radio"/> A few <input type="radio"/> A lot <input type="radio"/>	In Field <input type="checkbox"/> On Map <input type="checkbox"/>
7.		None <input type="radio"/> 1 or 2 <input type="radio"/> A few <input type="radio"/> A lot <input type="radio"/>	In Field <input type="checkbox"/> On Map <input type="checkbox"/>
8.		None <input type="radio"/> 1 or 2 <input type="radio"/> A few <input type="radio"/> A lot <input type="radio"/>	In Field <input type="checkbox"/> On Map <input type="checkbox"/>
9.		None <input type="radio"/> 1 or 2 <input type="radio"/> A few <input type="radio"/> A lot <input type="radio"/>	In Field <input type="checkbox"/> On Map <input type="checkbox"/>
10.		None <input type="radio"/> 1 or 2 <input type="radio"/> A few <input type="radio"/> A lot <input type="radio"/>	In Field <input type="checkbox"/> On Map <input type="checkbox"/>

DRAFT

*Rough density estimate = # of sample plots with mean seeds/ total # of samples<sup>1</sup>*

**NOTES**

This site has warm season grasses with more golden rod and aster on NE side. Dense low cover here with some taller grass. Balance of site has more warm season grasses and less broadleaf. Good maintained site.

**DISCLOSURE**

This report attempts to inform the reader of the presence or absence of ‘mean seeds’ in a training or event field so that each individual owner/handler/club member can make his or her own decision regarding their participation in events held on these grounds. This report is descriptive in nature and neither its author nor the committee that commissioned/prepared it can guarantee the safety of any individual dog. It is impossible to certify that any field is 100% clear of harmful plants; however, the providers of this report can confirm that the fields have been surveyed according to the methodology outlined and all pertinent information has been provided to the best of their abilities.

Cecelia Lokai-Minnich

<sup>1</sup> If mean seeds are identified in 6 out of 10 sample plots = estimate that 60% of the field has mean seeds

DRAFT

*Rough density estimate = # of sample plots with mean seeds/ total # of samples<sup>1</sup>*

**NOTES**

Overall fairly clean. Very well maintained field trial site. Good cover with warm season grass in both areas with trace of scattered teasel. The east side has slightly dense warm season grass.
